

**Supplementary Figure 1** – Bar graphs showing the results to the questions in which students had to pick answers from a predefined list. Student response frequencies are shown for the following questions: **(A)** which segments of on-line classes helped students the most in preparing the course material (Question S25), **(B)** which types of contact classes students missed most during on-line classes (Question S26) and **(C)** which aspects of contact classes students missed the most during on-line classes (Question S27).
