

Course: Quantitative methods of clinical investigations (Academician Stjepan Gamulin, Assist. Prof. Ivana Kolčić)

Date	Hour	Class type	Title	Teacher
Monday 04.09.2017.	10.15-11.00	Lecture	Principles of clinical investigations	Academician Stjepan Gamulin
	11.00-11.45	Lecture	Quantitative evaluation of diagnostic methods	Academician Stjepan Gamulin
	11.45-13.15	Seminar	Quantitative evaluation of diagnostic methods	Assist. Prof. Ivana Kolčić
	13.15-15.15	Lunch break		
Tuesday 05.09.2017.	8.30-9.15	Lecture	Quantitative estimation of etiologic and prognostic factors	Academician Stjepan Gamulin
	9.15-10.45	Seminar	Quantitative estimation of etiologic factors	Assist. Prof. Ivana Kolčić
	11.00-12.30	Seminar	Quantitative estimation of prognostic factors	Assist. Prof. Ivana Kolčić
	12.30-13.15	Lecture	Quantitative estimation of therapeutic outcomes	Academician Stjepan Gamulin
	13.15-15.15	Lunch break		
Wednesday 06.09.2017.	8.30-10.00	Seminar	Quantitative estimation of therapeutic outcomes 1	Assist. Prof. Ivana Kolčić
	10.15-11.45	Seminar	Quantitative estimation of therapeutic outcomes 2	Assist. Prof. Ivana Kolčić
	11.45-13.15	Seminar	Individual students' work – Quantitative estimation of diagnostic, etiological, prognostic & therapeutic studies	Assist. Prof. Ivana Kolčić
	13.15-15.15	Lunch break		

The students are asked:

1. To download and print:
 - Seminars tasks,
 - Articles for seminars (from personal e-mail addresses),
 - S. Gamulin, Clinical investigations, definition and formulas,
2. To be familiar with calculators on PC or manual

Literature:

1. Gamulin S. Clinical investigation – Clinical epidemiology, Zagreb: Medicinska naklada, 2017
2. Recommended book: R.W. Fletcher, S.W. Fletcher. Clinical epidemiology, the essential 4.ed. (available on web)
