

Upute za dodavanje mrežnih printera na računalima s Windows XP

Kako biste mogli ispisivati na mrežnom printeru Vaše računalo potrebno je povezati s mrežnim printerom. <u>Mrežni printer</u> ćete dodati prema sljedećim koracima:

- 1. Na izborniku *Start* odaberite *Control Panel*
- 2. Nakon što Vam se otvori prozor Control Panela odaberite Printers and Faxes.

3. Odaberite Add a printer i nakon toga odaberite Next.

4. Odaberite A network printer, or a printer attached to another computer i Next.

5. Odaberite Find a printer in the directory i Next.

6. Da bi pronašli mrežni printer odaberite Find Now.

7. S popisa printera odaberite samo printere koji su dodijeljeni Vašoj službi ili katedri i odaberite *OK* i Vaš odabrani printer će biti dodan/instaliran.

8. Vaš odabrani printer je dodan/instaliran. Vaš postupak dodavanja mrežnog printera završava odabirom *Finish*.

Ukoliko ste ispravno prošli kroz prije navedene korake Vaš odabrani printer je uspješno dodan i sad možete neometano krenuti s ispisivanjem na Vašem printeru. Kroz ovaj postupak prolazite samo kada prvi put dodajete/instalirate printer na Vašem računalu.
