

**Bernarda Lozić****Academic title:** assistant professor**Work address:** University Hospital Split, Department of Pediatrics  
Spinčićeva 1, Split, Croatia  
Tel. ++38521556205 E-mail: blozic@kbsplit.hr**Education:** Masters programme, "Basic and clinical medical science"- University of Split School of Medicine, Croatia, 2002.-2003.  
Postgraduate professional study program Clinical Pediatrics, University of Zagreb School of Medicine, Croatia 1999.-2000.  
Postgraduate professional study program of medical genetics, University of Zagreb School of Medicine, Croatia, 2002. - 2003.  
Medical doctor, University of Zagreb School of Medicine, Croatia, 1983.-1989.**Additional education :**

2012 Hybride course in Medical Genetics; CROATIA  
2011 EuroGentest and workshops on accreditation to improve genetic testing in Europe  
2010 Hybrid course in Medical Genetics; CROATIA  
2008 Hybrid course in non-invasive prenatal diagnosis; CROATIA  
2006 Hybride course in genetic counseling in practice; European school of genetic medicine; Slovenia

**Work Experience:**

2008-currently Higher research assistant for scientific biomedicine and health, clinical field of medical science, branch of pediatrics, Department of Pediatrics at University of Split, School of Medicine, Croatia  
1994-currently Resident pediatrics / pediatrician/ pediatric subspecialist geneticist, University Hospital Split, Department of Paediatrics  
1992-1994 Physician, Ministry of Defence, Republic of Croatia  
1991-1992 Physician, Health Center Sinj, Croatia  
1990-1991 Physician, Health Center: Dr. Peter Vitezica, Split

**Funding and scholarships:**

2003-2004 Postdoctoral Fellow "Identification of a Gene on Chromosome 18q21 Involved in Suppressing Metastatic", primary investigator Teresa R. Johnson-Pais, Ph.D., University of Texas Health Science Center San Antonio, TX, USA.

**Expertise:** Bernarda Lozić, PhD is a specialist in the field of clinical genetics. She spent one year at the University of Texas Health Science Center San Antonio, TX, USA where she gained experience in molecular testing and analysing of genetic background of human diseases. That required application of specific statistical methodology. Bernarda Lozić, PhD has published 16 scientific papers and has been cited 16 times.**Tutoring experience:**

Mentor of graduate thesis: Nina Gotkovski, Professional Study of Nursing, University of Split School of Medicine, 2009.

**Projects:**

2014 – current collaborator in scientific research project financed by Croatian Science Foundation, Identification of new genetic loci implicated in regulation of thyroid and parathyroid function, leader Tatijana Zemunik

**Member of several associations:** Croatian Physician Chamber, Croatian Pediatric Society, Croatian Society of Human Genetics, The Croatian Alliance for Rare Diseases**Reviewer for Journals in CC/SCI:** Croatian Medical Journal, Paediatrica Croatica
