

Unit 4: Radiological anatomy

Lecture: Introduction to radiological anatomy

Plain radiographs: An@tomedial **general anatomy** module -imaging-frames: 01-05

Contrast radiographs: An@tomedial **general anatomy** module -imaging-frames: 08-12

CT: An@tomedial **general anatomy** module -imaging-frames: 16-18

MRI: An@tomedial **general anatomy** module -imaging-frames: 20-22

Ultrasound: An@tomedial **general anatomy** module -imaging-frames: 24-27

Seminar & practical : Imaging of the vertebral column

Lumbar & thoracic spine radiographs: An@tomedial **back** module -imaging-frames: 01-05

Cervical spine radiographs: An@tomedial **neck** module -imaging-frames: 01-03

CT of lumbar & thoracic spine: An@tomedial **back** module -imaging-frames: 18-23

CT of cervical spine: An@tomedial **neck** module -imaging-frames: 16, 25

MRI of lumbar & thoracic spine: An@tomedial **back** module -imaging-frames: 20-23

MRI of cervical spine: An@tomedial **neck** module -imaging-frames: 28
