

Professor Ivica Grković, MD, PhD

ivica.grkovic@mefst.hr

Born in Zadar, Croatia, professor Grković is a graduate of the Rijeka University School of Medicine (1989), where he also obtained his masters degree (1992). He did his PhD at Department of anatomy and cell biology at Melbourne University (1997) where he worked as lecturer and senior lecturer in anatomy and neuroscience. In 2004 he returned to Croatia and took an appointment at School of medicine in Split. From 2005 he is a head of anatomy department, between 2007 and 2009 he was vice-dean for research and postgraduate studies and between 2009 and 2011 vice-dean for students. Research interest of professor Grković includes neurobiology of the autonomic nervous system, gross anatomy research as well as medical education. In these fields he has more than 50 research publications with the H-index of 15. He is founder of the Laboratory for experimental neurocardiology at the Department of anatomy, histology and embryology. Professor Grković is one of four principle authors of a modular multimedia-based project for teaching and learning anatomy (www.anatomeia.com) which is licensed by more than 20 universities world-wide.

Prof. dr. sc. Ivica Grković, dr. med.

ivica.grkovic@mefst.hr

Rođen u Zadru, I. Grković je diplomirao na Medicinskom fakultetu Sveučilišta u Rijeci (1989.), gdje je i magistrirao (1992.). Doktorirao je na Zavodu za anatomiju i staničnu biologiju Sveučilišta u Melbourne-u, Australia, 1997. godine, kada biva promoviran u akademsko zvanje 'lecturer' i 'senior lecturer'. Na istom zavodu radi do 2004. godine kad dolazi na Medicinski fakultet u Splitu. Od 2005. godine vodi Katedru za anatomiju, od 2007. do 2009. godine bio je prodekan za znanost i poslijediplomske studije a od 2009 do 2011. prodekan za nastavu. Područje znanstvenog interesa prof. Grkovića su neurobiologija autonomnog živčanog sustava, anatomska istraživanja i medicinska edukacija i iz ovih područja objavio je više od 50 znanstvenih članaka, s H-indeksom od 15. Osnivač je Laboratorija za eksperimentalnu neurokardiologiju na Zavodu za anatomiju, histologiju i embriologiju. Profesor Grković je jedan od četiri glavna autora modularnog multimedijskog projekata za učenje i podučavanje anatomije (www.anatomeia.com), licenciranog na više od 20 svjetskih sveučilišta.
