Academic year for which the topic is being registered: _____

II. ETHICAL ISSUES STATEMENT

- I, _____, hereby confirm my agreement to serve as the mentor to the student _____ in the preparation of the aforementioned diploma thesis.
- I also confirm that the topic of this thesis has not been previously used or published.
- According to the nature of the work, the protocols for all research conducted for the purpose of this diploma thesis have either already been approved or approval will be sought from all relevant Ethics Committees of the institutions where the research is being conducted.*
- I declare that the research conducted within the framework of this diploma thesis adheres to all applicable legal regulations and ethical principles and guidelines aimed at ensuring proper research conduct, participant safety, and research integrity (Helsinki Declaration, Principles of Good Clinical Practice, Charter of Human Rights in Biomedicine, European Code of Research Integrity).
- I declare that all necessary steps and measures have been taken to protect the identity of participants and ensure the secure storage of personal data in compliance with the EU General Data Protection Regulation 2016/679 (GDPR) and the national legislation NN 42/2018 governing its implementation in the Republic of Croatia.

* Research using only publicly available data does not need to be submitted to the Ethics Committee of USSM; Research conducted using commercially (publicly) available materials/cell lines that do not allow direct or indirect identification of participants does not need to be submitted to the Ethics Committee of USSM; If the institution where the research is conducted does not have an Ethics Committee and is unable to provide an Ethics Committee opinion, the candidate is required to obtain written consent from the head/responsible person of the institution to conduct the research and request an opinion from the Ethics Committee of USSM.
