- 2020. – 2021. Demonstrator for Clinical Skills course of the University of Split, School of Medicine

COURSES AND CONFERENCES

- 03/2023. – "Škola infektologije ST-2023" course
- 09/2022. – 10th Croatian Congress of Pharmacology and 1st Croatian Congress of Clinical Pharmacology with International Participation
- 08/2022. – "Liječnička etičnost u hitnim stanjima" course
- 06/2022. – "Dijabetes - od teorije do prakse" course
- 03/2022. – "Hitna stanja u internoj medicini" course

SCIENTIFIC INTEREST

Marin Mornar has been working as an assistant at the Department of Basic and Clinical Pharmacology since December 2021 and is involved in research that studies the mechanisms of the cardioprotective effects of wine and its ingredients on ischemic heart muscle injury in *in vivo* and *in vitro* conditions. In addition, he studies the impact of wine consumption on indicators of oxidative stress and inflammation, mitochondrial metabolism, as well as the impact on the processes of autophagy and mitophagy in the examined animal tissues. The research is actively carried out in cooperation with the professors of the Department of Physiology and the Department of Immunology and Medical Genetics.

SCIENTIFIC PUBLICATIONS

- **Mornar M**, Novak A, Bozic J, Vrdoljak J, Kumric M, Vilovic T, Rakovic I, Ticinovic Kurir T, Martinovic D, Urlic H, Vilovic M. Quality of life in postmenopausal women with osteoporosis and osteopenia: associations with bone microarchitecture and nutritional status. Qual Life Res. **2023** Nov 13. doi: 10.1007/s11136-023-03542-7.

CONGRESS ABSTRACTS
