

Split, 16 May 2023

MedILS School in Bioinformatics, Split, Croatia

Part I: 21 – 25 August 2023

Part II: 16 – 20 October 2023

Dear colleagues,

We are pleased to invite you to the international workshop “MedILS School in Bioinformatics” that will be held at the beautiful Mediterranean Institute for Life Sciences (MedILS) in Split, Croatia.

The aim of this School is to bring together an interdisciplinary community of participants enthusiastic about science, new technologies, biology, big data analysis, and those curious to learn new things. We will welcome 20 – 30 young researchers (master students, PhD students, postdocs), but experienced researchers are also welcome. No prior computational experience is required.

This year, the School will be divided in two parts:

- **Part I: 21 – 25 August 2023** (protein sequence and structure analysis; protein structure prediction; drug design; proteomics & metabolomics)
- **Part II: 16 – 20 October 2023** (GWAS; pharmacogenomics; transcriptomics; epigenomics; microbiome)

For more information and to register please visit <https://bioinfo.medils.hr/>. Further information will be up-dated continuously.

We would highly appreciate if you would support us by passing on the information of our School to interested colleagues and young researchers and encourage them to attend the workshop. Thank you!

Please do not hesitate to contact us (irena.rajic@medils.hr or andrea.gelemanovic@medils.hr) if you have any questions related to the organisation of the School.

We warmly welcome you and look forward to your attendance!

Sincerely,

Andrea Gelemanović & Alessandro Paiardini
